

Social Prescribing and Palliative Care

1-Hour Webinar for Health Professionals

Social prescribing is the practice where health professionals have the resources and infrastructure to link patients with social services or groups, in a bid to address the determinants contributing to poor health and address the challenges of loneliness and social isolation.

About the webinar

Your chance to hear from experts in this very important field that you may not otherwise have access to. They will share their knowledge and insights about this topic for people experiencing serious illness, dying, grief and caregiving.

Guest Speakers:

Siân Slade

Enterprise Fellow
(Honorary), Nossal
Institute for Global
Health

Leah Robinson
